# ENJOY THE VIEW

GLAZING SPECIALISTS

*Previously known as 1st Folding Sliding Doors, we recently updated our brand name to 'Enjoy The View' to better communicate what our customers consistently tell us they love about their new glazing, that it brings the light in, and allows them to enjoy the view!*

From elegant sliding doors to bespoke architectural glazing, every product is made to measure, beautifully finished, and professionally installed - so that you can enjoy your view.

For over 20 years, we have helped homeowners, architects, and builders transform spaces with light, style, and precision glazing solutions. Based in West London, we've built a reputation for expertise, craftsmanship, and personalised service, all delivered with clarity and confidence.

# GLAZING THAT PERFORMS AS BEAUTIFULLY AS IT LOOKS

---

*We specialise in high-performance glazing systems that are as durable as they are desirable.*

*Whether you're replacing a single set of patio doors or creating a full glass façade, we offer the same level of care, attention and technical support, from first conversation to final sign off.*

GGFI guaranteed protection - peace of mind, built in

✓ REGULATION COMPLIANT

Fully certified by FENSA, GGF member

✓ UK-BASED SERVICE

Local expertise, quick response

✓ 20 YEAR'S EXPERIENCE

A team you can trust

# AN INDEPENDENT OWNER-RUN BUSINESS

---

As an independent, owner-run business, our reputation means everything. We're a team of 30, led by Daniel Creese, who brings over 30 years experience in the glazing industry.

We take pride in delivering outstanding results and making sure you're absolutely delighted with your new glazing before we leave.

Over the past two decades, we've worked on everything from terrace house renovations to Grand Designs style new builds across the country. It's incredibly rewarding to help transform a home, whether we're installing glass doors that open up the back of a house or designing a gravity defying architectural roof to be featured in Architects Journal.

We're proud to collaborate with leading architects, builders, interior designers, and construction professionals, and even prouder to be the glazing company homeowners recommend to their family and friends. In fact, many of our customers return to us time and time again.

It's our service and attention to detail that make us one of the most trusted glazing specialists in the business.

*"I have nothing but good things to say about this company. Really pleased with the doors, the turnaround and the installation. All staff were very polite and helpful and inspired confidence from the very first call. Absolutely recommend this company."*

## OUR PROCESS

*At Enjoy The View, we ensure your project runs smoothly from the very beginning to installation, and beyond. We offer a full end to end service, and a free site survey so everyone's clear on the project requirements and best solutions.*

*We won't leave a job until it's completed to your satisfaction. And of course, all our projects are backed by a full warranty, so if anything goes wrong, we're just a call away.*

### STEP No.1

#### BRING YOUR VISION TO LIFE

Discuss your requirements with our team, browse our website or pop into our showroom. Explore our glazing options, review our previous UK projects, and experience the quality of our UK produced products.

### STEP No.2

#### FREE SITE SURVEY

Once you've chosen a direction, call our team to book a free site survey. We'll talk through your project onsite, with you, your builder and your architect - understanding your vision and recommending the best products. We'll also review the technical specification with your builder, to meet their exacting standards.

### STEP No.3

#### FINALISE THE QUOTE

Once the products are agreed upon, our friendly sales team will prepare a detailed quote outlining each product's specification and pricing. This ensures you and your builder understand exactly what the job requires.

### STEP No.4

#### ORDER YOUR GLAZING

Once you're 100% satisfied with the quote, we take a deposit and your glazing is ordered. Most of our products are bespoke and take around 3-5 weeks to manufacture and prepare for installation.

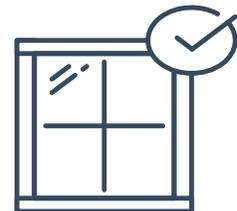

### STEP No.5

#### PREPARE FOR INSTALLATION

When your glazing is delivered to our warehouse, we'll contact you to arrange a suitable installation date. We'll confirm all details and request final payment (less 5%) prior to delivery.

### STEP No.6

#### INSTALLATION DAY

Our expert fitters will arrive, clearly identified by uniform and ID. They'll install your glazing with precision, guide you through how it works, and leave your space spotless, so you can sit back and Enjoy The View.

# OUR PRODUCT RANGE

---

## BI-FOLDING DOORS

Open up your home to the outdoors with our slimline, secure aluminium bi-folding doors. Designed to glide effortlessly and fold away neatly, they create uninterrupted views and a seamless connection to your garden or terrace.

## SLIDING DOORS

For a more minimal, architectural look, our sliding doors offer maximum glass with minimum frame. Available in twin or triple track systems, they're ideal for panoramic openings and modern living extensions. Bespoke panel combinations allow you to design the space to your vision and lifestyle. We offer UK manufactured options in a range of sightlines, with up to four track options.

# OUR PRODUCT RANGE

---

## WINDOWS

From classic casements to striking fixed picture windows and shaped gables, our window systems combine elegance with exceptional energy performance.

## GLAZED ROOFS & SKYLIGHTS

Add drama and daylight with bespoke skylights, lanterns and structural glass roofs. Designed to flood your space with natural light, all engineered and installed to the highest standard.

## ENTRANCE DOORS

Make a statement from the street with secure, stylish front doors that blend beautifully with your glazing. Choose from a wide range of designs and finishes, or let us help you create something entirely bespoke.

---

## DESIGNED AROUND YOU

Every project is individually designed to complement your architecture and way of life. Whether you're building new or renovating an existing home, we'll help you choose the right solution, materials and finishes to bring your vision to life.

- ✓ Over 200 RAL colours
- ✓ Dual colour options
- ✓ Integral blinds
- ✓ Flush and rebated thresholds
- ✓ Thermally broken aluminium for year-round comfort

# WHERE HERITAGE MEETS MODERN LIVING

---

BATH | WATERCRESS COTTAGE | ARCHITECTURAL GLAZING

*“The glass extension has given the family room to breathe, we can all happily co-exist in the same room.”*

DAVID THE OWNER

Set beside the 15th-century Watercress Cottage and overlooking the medieval Farleigh Hungerford Castle, this project is a striking showcase of how contemporary glazing can sit in harmony with Britain's historic architecture. Working with Duncan Greenway and the team at Greenway Architecture, the design centres on a highly glazed extension - light, transparent and described by the architect as appearing to “float on the ground.”

The bespoke glazing system forms doors, windows and walls, dissolving the boundary between inside and out. Manufactured with precision off-site and installed in just a day, it ensured exceptional quality while minimising disruption to neighbours and nature. Its clarity and craftsmanship allow the family to feel immersed in the surrounding gardens and historic water features, while the simple material palette enhances the purity of the glass itself.

The project has won multiple design awards and been featured in national press and television. Yet for the homeowners, its real achievement is the joy it brings to their family.

# LIGHT FILLED LONDON HOME

LONDON | SEMI-DETACHED | DOORS, WINDOWS, GLAZING ROOF

*“We absolutely love the home we have created, and the glazing from Enjoy the View is a crucial element of this transformation.”*

JAMES THE OWNER

When extending their semi-detached home after five years, this family wanted more than extra square footage - they wanted a home that enhanced their family's lifestyle. With limited space to play with, every element had to serve multiple purposes, creating clearly defined zones that still flowed together seamlessly.

Through Enjoy the View's design consultation service, the family were able to select glazing solutions that not only met practical needs but also enriched the way they lived every day. A bespoke window seat became the heart of the new dining area, framing garden views and connecting the indoors with the outdoors. In the snug, the same feature now doubles as extra seating or a space to stretch out for family movie nights. Sliding doors were chosen to maximise garden access without encroaching on the patio - a detail that has transformed how the space is used year-round.

The result is a home that feels both larger and more connected, where every corner has a purpose.
